**PRICES FOR BAREROOT FRUIT TREES
AND
BUSH CLIMBING ROSES**

1949 SEASON

Prices quoted in this list are for dormant fruit trees and rose bushes, available from January through March. After April first prices on fruit trees and rose bushes established in containers will be released.

A quantity discount of 10% will be allowed on any purchase of twelve or more fruit trees or twelve or more bush and climbing roses regardless of variety selection.

F. W. JAMES & SON gives no warranty, expressed or implied, as to the productiveness of the plants it sells, and will in no way be responsible for the crop. Our liability in all instances is limited to the purchase price of the plants.

A PRODUCT OF SWIFT

VIGORO
COMPLETE PLANT FOOD

DORMANT ROSES 1949 SEASON

ALICE STERN

One of the best white roses. Perfectly formed buds open to large flowers tinted ivory at base.

Vigorous.\$1.00

APRICOT QUEEN

Pat. No. 464. A glorious new rose with orange and apricot emerging from the base of the petals up to salmony rose and phlox-pink. Ruffled edges to the petals. A beautiful flower on a bushy plant with attractive foliage.\$1.50

AUTUMN

The full, handsome buds are a superb shade of burnt-orange, and the opening flowers are heavily suffused with russet-brown and bronzy red all overlaid in a background of rich yellow. Deliciously fragrant. The plant is strong-growing and has a big, broad, glossy foliage.\$1.00

BEST REGARDS

Pat. No. 652. Tyrian rose with coppery oversheen. Vigorous grower, prolific bloomer. Extra large buds, and open flowers.\$1.50

BETTY PRIOR

Pat. No. 340. Large branching clusters of single blooms resembling dogwood in shape, size and color. The plants are abundantly branched and continuous in bloom.\$1.25

CALEDONIA

Pure white, large, well-formed flower of high merit. Growth free. Foliage excellent\$1.00

CECIL BRUNNER

Miniature buds and flowers, rose pink shaded salmon that are near perfection. Plant requires practically no pruning. A strong grower and always in bloom...\$1.00

CHARLOTTE ARMSTRONG

Pat. No. 455. A vigorous bush with good foliage, long slender, carmine buds and magnificent open flowers of blood red and brilliant cerise-pink.\$1.50

CHATTER

Pat. Rights Reserved. Hybrid polyantha. A compact, disease resistant bush growing to a height of 18" and bearing a profusion of semi-double blooms. Its bright crimson-ruffled petals make a vivid contrast with the yellow stamens. Flowers resemble Summer Snow except as to color.\$1.25

CHRISTOPHER STONE

Glowing, brilliant, crimson-scarlet flowers with deeper shadings never have a trace of blue and do not fade in the hottest sun. The buds have a long-lasting substance and a delightful spicy fragrance.\$1.00

CONDESA DE SASTAGO

Distinctly bi-colored, large cup-shaped flowers, fairly double and yet not too heavy, are glowing orange scarlet on inside, bright yellow on outside. Fragrant, always in bloom.\$1.00

COUNTESS VANDAL

Pat. No. 38. The long tapering buds of salmon pink, richly shaded with copper and gold tones, are richly perfumed. Buds and open flowers are always perfect no matter what the weather. A robust bush that flowers constantly.\$1.35

DAINTY BESS

Single, pink flowers with a brownish-red overcast and contrasting center of wine-red stamens, borne in clusters. The flowers are lasting when cut, and the bush is strong and tall, blooming continuously...\$1.25

DAME E. HELEN

Bush of upright habit, requiring special pruning. Flowers clear rose pink and delightfully fragrant. The most double rose grown.....**\$1.00**

DEBONAIR

Pat. No. 677. A profusion of perfect, jaunty, mimosa yellow buds open to high-centered, many-petaled flowers of clear, primrose-yellow — every graceful flower brimful of old-fashioned rose fragrance. You will like the fresh luxuriant appearance of the vigorous, upright bush for its glossy, mildew-resistant foliage is among the most handsome to be found in roses. **\$2.00**

DIAMOND JUBILEE

Pat. Rts. Res. Double, high-centered flowers in light pastel shades of buff, yellow, and pale orange. An enormous number of blooms and the big, many-branched, good looking plant with long, sturdy stems and an abundance of rich, dark green foliage, is always attractive.**\$2.00**

DONALD PRIOR

Pat. No. 377. Bright red floribunda. Bush of medium height, and the flowers are borne in clusters on tips of the branches.....**\$1.00**

DUCHESS OF ATHOLL

Large pointed buds of vivid orange. Bush compact. Foliage disease resistant. Flowers freely and grows well.**\$1.00**

DUQUESA DE PENARANDA

An effective color blend of apricot, orange, and pink buds open to large high centered flowers. Strong bush, excellent foliage.....**\$1.00**

ECLIPSE

Pat. No. 172. Awarded prizes in Rome, Paris, and other test-gardens. Its long, stream-lined bud, enhanced by ornamental sepals, is of rich gold without shading. Petals are large and tough, but not numerous, averaging 20 to 25, with more in autumn. Gold Medal, American Rose Society.....**\$1.35**

E. G. HILL

The largest and most double of the red varieties. Color a dark red. Bush is light, and flower fragrant. Long stems and abundant bloom.....**\$1.00**

ETOILE DE HOLLANDE

Each perfect medium-sized bud of velvety maroon opens beautifully and cleanly to a deliciously fragrant flower of crimson with darker shadings. Each petal holds its brilliant color until it drops. A spicy fragrance. The bush is strong and free-branching, entirely covered with great big fresh looking leaves.....**\$1.00**

FLORADORA

Pat. Applied. Scarlet-vermillion, perfect camellia-like flowers of the floribunda type. Vigorous growth and all season bloomer of medium-sized flowers.....**\$1.25**

FORTY-NINER

It is unquestionably the most brilliant hued bi-colored rose ever introduced. The inside of the petals is a dazzling vivid red, while outside they are a chrome yellow changing to straw yellow. The plant is exceedingly vigorous, tall and upright, branching moderately. The stems are long, straight, and sturdy, with few thorns. The flat, dark green foliage is medium sized in the spring, increasing to large proportions in late summer and fall. Unlike most bi-colored roses produced in the past the colors of Forty-niner are lasting and beautiful until the last petal drops, and the plant is satisfyingly strong and resistant to disease.**\$2.50**

FRAU K. DRUSCHKI

Pure white, with immense long buds and very double flowers, wax-like in texture. Hardy everywhere, with long upright growth up to 6 feet.....**\$1.25**

GENERAL MACARTHUR

A rose that will flower every day in the year. Flowers deep crimson and fragrant. One of the most popular of all red roses.....**\$1.00**

GIRONA

Full, exquisitely formed buds and flowers—and plenty of them—long, sturdy stems, delightful fragrance, vigorous, erect, disease-resistant plants. Paint the flowers a glowing mixture of pink, red and yellow and there's your Girona. You'll be surprised at their keeping qualities when cut.....**\$1.25**

GOLDEN RAPTURE

Bush of upright habit and free flowering. Lots of perfectly formed buds, glowing, shining yellow, rich and unfading. Growth habit is medium. Our best yellow rose.....**\$1.00**

GRAND DUCHESS CHARLOTTE

Pat. Pending. The interesting buds are a striking claret color, changing to lovely begonia-rose as flowers age. Even the stems are red. The open flower is not always perfect in form but few can resist the beauty of its unique coloring. Big, strong, free-branching plants. A rich fruity fragrance.....**\$1.50**

HADLEY

Large, double, well formed flowers of rich crimson, intensely fragrant. Borne singly on stem of average length and strength. A free and continuous bloomer.
.....**\$1.00**

HEART'S DESIRE

Pat. No. 501. Long, pointed buds of clear luminous unshaded red with a superb sweet fragrance. You will always find it on long stems and you will marvel at its lasting qualities.....**\$1.50**

HINRICH GAEDE

A desirable shade of vermillion, buds open into high centered very double flowers of vermillion, copper, and orange. Buds especially long pointed. Free blooming and excellent foliage.....**\$1.00**

HOOSIER BEAUTY

Dazzling crimson, veined heavily with maroon. A velvety sheen heightens the brilliant coloring. Flowers will not turn purple with age. An old favorite. **\$1.00**

HORACE McFARLAND

Pat. No. 730. The long-pointed, orange-pink buds are extraordinary for their length and beauty of form. In the bud the color is more orange than pink, and as the big, full double flower opens it becomes a deep apricot-pink with lighter shades of salmon and coral pink. The plant is tall, upright and vigorous, with long straight stems and broad leathery foliage. Only moderately fragrant.**\$1.50**

IRISH FIREFLAME

Buds of deep orange splashed with crimson, open to large single flowers of satiny old gold. There will be plenty for cutting on the tall willowy plant.....**\$1.25**

JOANNA HILL

Soft, yellow buds, borne on good stems. Flowers are full and spicily fragrant. Light green foliage and a few thorns.....**\$1.00**

J. OTTO THILOW

A vigorous bush that produces many perfect buds of rich, rose pink. Crisp, tight petals, soft, pink tips, deepening at base. Shapely double flowers.....**\$1.00**

K. A. VICTORIA

One of the best white roses for 40 years. Lovely buds and big, full flowers. Few white varieties will bloom as freely and continuously regardless of the weather. **\$1.00**

LADY HILLINGDON

A prolific blooming variety, disease-resistant, fragrant. The flowers are soft yellow to apricot in color. **\$1.00**

LOS ANGELES

Pointed buds open slowly, displaying beautifully their tones of pink flame and salmon. Flowers are of good form and substance. Bush is vigorous. **\$1.00**

LOWELL THOMAS

Pat. No. 595. All-American Selection of 1944. The long tightly furled buds are clean golden yellow, deep and glowing. They open slowly into large, mildly fragrant flowers in a lighter shade of shining yellow. The large robust plant keeps throwing out new flower stems continuously. Planters report that it does well in hot weather or cool. **\$1.50**

LULU

Dainty, long, slender buds of coral-apricot. Exquisitely formed in the bud stage and opens to a dainty single flower. The plant is low and bushy but very vigorous and free-blooming. **\$1.25**

McGREDY'S IVORY

A beautiful ivory-colored rose changing to clear white when open, with occasionally a faint pink flush in the center. Sweet-scented, of perfect form. **\$1.00**

McGREDY'S SCARLET

Produces enormous quantities of slender medium-sized rose-red buds all through the season. The bush is free branching, grows with astonishing rapidity and doesn't seem to be particular as to soil. **\$1.00**

McGREDY'S YELLOW

Soft buttercup yellow, without shading. Solid buds, huge high centered flowers of 45 to 50 petals. Well-formed buds. Plenty of leathery leaves and good growing qualities. **\$1.00**

MING TOY

Pat. Applied. A new polyantha rose. Beauty of detail brings forth all the fine qualities and loveliness of this variety. Its brilliant rose colors may be fairly compared with the finest camellias in form. A constant producer of fine cut sprays. **\$1.50**

MIRANDY

Pat. No. 632. A gorgeous rose, producing big, ovoid, long-pointed buds of deep, rich red with black shadings which open to lovely flowers of chrysanthemum-red. Along with its deep rich color, Mirandy possesses the most delicious, the most full-bodied fragrance you have ever inhaled. The flower displays new beauties of form as the petals unfold and eventually becomes a huge, full bloom (50 petals) which lasts a long while. **\$1.50**

MISS ROWENA THOM

Large double pink flowers with yellow base, vigorous habits, few thorns. Plant grows prodigiously fast. **\$1.00**

MME. BUTTERFLY

The buds are long and well shaped. The stems stiff, and the color very light pink with an edge of deep pink. **\$1.00**

MME. CHIANG KAI-SHEK

Pat. No. 664. Long pale lemon-yellow buds are of perfect form, open flowers are quite double and well-shaped. Rich, glossy foliage and grows vigorously. Upright and sturdy. **\$1.50**

MME. HENRI GUILLOT

Pat. No. 337. Tapering buds of warm raspberry pink open to big exhibition flowers that hold their form and color surprisingly long when cut.....**\$1.50**

MME. JULES BOUCHE

Medium-sized flowers of pure white with a tinge of pink on the edges of petals.....**\$1.00**

MRS. E. P. THOM

Pointed buds of clear canary yellow. Foliage disease-resistant and attractive looking.**\$1.00**

MRS. P. S. DuPONT

Long reddish gold buds; semi-double golden yellow flowers. Probably the heaviest bloomer of the yellow roses.**\$1.00**

MRS. SAM McGREDY

Beautiful copper orange in color, heavily flushed with lincoln red. There is no other color in roses like it. The buds are long-pointed, high-centered and double with a moderate fragrance. Growth low, robust, and much-branched with beautiful bronze foliage. **\$1.00**

NIGHT

A very dark red that has a spicy fragrance. The darkest and best of all the black roses. Well-shaped buds.**\$1.00**

NOCTURNE

Pat. No. 713. Bright cardinal red with intriguing darker chrysanthemum-crimson shadings. Fragrant long stems, large foliage.....**\$2.00**

PEACE

Pat. No. 591. The big canary-yellow buds open to 5-inch flowers that turn to alabaster white with picote cerise edges. A flower of great beauty, color varies from flower to flower. Foliage disease-resistant. Stems are strong.....**\$2.00**

PICCANNINY

A delightful medium-sized single rose with five crisp overlapping petals of velvety, deep red shaded with maroon. The long-stemmed flowers with a spicy cinnamon fragrance are marvelous for cutting. They are borne almost continuously on a tall, glossy foliaged plant.**\$1.50**

PICTURE

A strong growing variety. Flowers most attractively shaped, color pink with just enough salmon to be warm. A choice cutting variety that produces many flowers.**\$1.00**

PINK DAWN

A vigorous bush, resistant to rose diseases. Long, tight buds, crisp, substantial petals and heavy double warm pink flowers of ideal shape.....**\$1.00**

PINKIE

Pat. No. 712. Winner of an All-American Award for 1948. The perfect, long, slender pink buds open to fully double flowers about 2 inches across, and the blooms keep coming continuously from early spring to late fall. The 2-foot plant, covered with light green glossy foliage, forms a beautiful background for the large rounded clusters of spicily fragrant flowers. The clean looking foliage, its free-blooming habit, and the tendency for the old flower petals to drop off cleanly, adapt Pinkie for use as a border or dwarf hedge.....**\$2.00**

PINK RADIANCE

A large brilliant rose pink blossom. Very free flowering and most resistant to ordinary rose diseases. **\$1.00**

PINNOCHIO

Pat. No. 484. Baby buds of salmon pink flushed with gold. Plants literally covered from Spring 'til frost with great quantities of flowers. Ideal for corsages and easy to grow.....**\$1.25**

POINSETTIA

The most brilliant red rose ever produced—close to a poinsettia scarlet. Buds are ideal in form, long and pointed, and of fairly full petalage.....**\$1.00**

PRESIDENT HERBERT HOOVER

It combines many shades of cerise-pink, flame, scarlet and yellow, the long buds being beautifully formed, opening slowly and possessing a most delicious fragrance. Most dependable of all roses. It will get twice as big as most of your rose varieties.**\$1.00**

RED PRESIDENT HERBERT HOOVER

A sport of the President Hoover, with more scarlet and copper than of the yellow-cream.....**\$1.00**

RED TALISMAN

A blood red sport of the popular Talisman. Long ideal shaped buds on strong stems for cutting. Sturdy and upright of growth and very free flowering**\$1.00**

REX ANDERSON

Pat. No. 335. Large bloom of ivory white. Moderate growing plant, good foliage.**\$1.50**

ROSE MARIE

Ideal, long, pointed, clear pink buds. Used as a standard for all pink roses. Fragrant.**\$1.00**

RUBAIYAT

Pat. Applied. Sole winner of the 1947 All-American Award. In most weather the long, shapely bud is a scintillating rose-red or crimson, usually becoming paler in the open bloom. Both buds and flowers are extra large and carry a pronounced and delightful damask rose fragrance. Vigorous grower. Blooms from early Spring to late Fall.**\$2.00**

SAN FERNANDO

Pat. Applied. A perfectly shaped, long, streamlined bud of an intense brilliant red and a rich heady perfume, are its outstanding characteristics. The big, glowing petals are very firm and heavy textured, making a long-lasting flower which hold the captivating fragrance until the last petal drops. The plant is upright and moderately vigorous with dark green, leathery leaves.**\$2.00**

SAN GABRIEL

Pat. Applied. Long pointed buds of glowing salmon with a heavy overlay of tangerine orange and fire red. Distinct saffron yellow at the base of each petal. As the flower opens the petals reflex, showing all the beautiful coloring. Exceptionally free flowering and long lasting. Pleasing tea fragrance.**\$2.00**

SAN LUIS REY

Pat. Applied. A veritable treasure trove of golden loveliness in full petaled blooms of matchless beauty. Long pointed buds of guinea gold opening at the base to rich cadmium yellow. Tea scented.**\$2.00**

SANTA ANITA

Pat. No. 539. Color is an even shade of deep pink. Flowers are produced lavishly and the plants are literally covered with bloom all through the season. An excellent cut flower.**\$1.25**

SHOW GIRL

Pat. No. 646. The sensational buds are deep pink, almost carmine in the spring, opening to a softer tone but always deep pink. Has big heavy canes and plenty of lovely flowers borne on long, sturdy stems. Just enough fragrance to give it character.**\$1.50**

SIGNORA

Pat. No. 201. Long, dazzling orange scarlet buds of perfect shape and substance. The open flowers of velvety texture, are orange and scarlet and gold. Extremely vigorous. Varnished foliage. Blooms heavily.**\$1.35**

SIR HENRY SEAGRAVE

A pale lemon yellow rose, remarkable for long, shapely buds and the full form of high centered flowers. Exceedingly hardy and free blooming. Lush foliage. Delicious fragrance.**\$1.00**

SNOWBIRD

Our favorite white rose. Buds small but exquisitely formed. Open blooms very full, double. Grows well and flowers freely.**\$1.25**

SOUTHPORT

Slender, velvety scarlet buds and open flowers are of glowing waxy texture. Good dark foliage.**\$1.00**

SOUV. DE CLAUDIUS PERNET

Fine buds of non-fading yellow, foliage most resistant to diseases.**\$1.00**

SWEET SIXTEEN

Pat. No. 631. Dainty pink with tints of rose and a dash of gold—a soft rose complexion in the delicate colors of youth and beauty. The long tight buds, half open blooms, and large petaled flowers of this new rose are magnificent in their perfection. From spring until fall you will enjoy a long succession of sweetly fragrant buds and flowers borne on long straight stems.**\$1.50**

TAFFETA

Pat. No. 716. Carmine rose, changing to begonia rose in open flower. Reverse of petals yellow. Upright growth, glossy foliage. A very pronounced fragrance, the plant is moderately bushy.**\$2.00**

TALISMAN

The brilliant coloring is a mixture of orange-scarlet and golden yellow in irregular proportions, but always pleasing. Very double, exquisitely shaped, borne on long stems, exceedingly sweet scented.**\$1.00**

TALLYHO

Pat. Applied. Is a Hybrid Tea Rose resulting from a cross of Charlotte Armstrong and an unnamed red rose. It combines many of the finest characteristics found in the best roses on the market today with a color which is entirely new to roses. Inside of the petals is always a delightful shade of pink, such as tyrian rose, china rose, phlox pink, or neyron rose, and the outside of the petals varies from crimson to cardinal red. Although it is a bi-color, the contrast is not great. The buds are not as long as those of Charlotte Armstrong but are ovoid in shape, opening to flowers with a few more petals than those of Charlotte Armstrong, and full of a spicy fragrance. Robust growth one of the finest characteristics.**\$2.50**

TEXAS CENTENNIAL

Pat. No. 162. A sport of President Herbert Hoover, with all its wonderful plant qualities. Color is blood-red, toning to cerise-red in center. Most striking new red of unusual color.**\$1.00**

THE CHIEF

Pat No. 456. This rose has gigantic, extremely long buds, delightful form and rich color. The color of the bud varies with the weather from deep rose to flame, opening to a magnificently full flower of flame, coral and copper, changing to a beautiful shade of orange-pink as the flowers age. The blooms are borne singly on exceedingly long stems, with plenty of thick, heavy, lasting petals, and best of all, they have a rich fruity fragrance which few roses can equal. A spreading vigorous plant, remarkably resistant to mildew.**\$1.50**

THE DOCTOR

Enormous delicately colored, large-petalled pink blooms. The plant is modest in growth, and you will have to give it little extra attention, but it is worth doing that to get those great, exquisite, silvery pink flowers, with the intensely sweet fragrance.\$1.00

VICTORIA HARRINGTON

A magnificent dark, velvety red rose of striking form and color. The long, tapering buds that open slowly, display a glowing sheen that covers each curling petal throughout the life of the flower. Does not bloom as heavily as some other red roses. Dark, vigorous, healthy growth. Excellent for cutting.\$1.00

VILLE DE PARIS

A clear, sunflower yellow, sport of Talisman, same foliage, habit of growth, and fragrance. Bush is vigorous and branching.\$1.00

WILL ROGERS

Pat. No. 256. Flowers are double, well formed, crimson-maroon in color. It is suggested that this rose be planted in light shade.\$1.25

CLIMBING ROSES

CL. AUTUMN

This climber has all the riotous colors and the vigorous growth of the bush, of which it is a sport.\$1.25

CL. BELLE OF PORTUGAL

Ten or 12-foot canes the first season are not unusual and the amazingly beautiful salmon-pink buds are often 3 or 4 inches in length. It will be too busy growing to flower much the first two seasons, but thereafter prepare to enjoy spectacular masses of bloom starting right in midwinter—months earlier than any other rose in your garden\$1.25

CL. CAPT. THOMAS

Pat. No. 393. This magnificent climber has myriads of single, creamy yellow flowers almost every week in spring, summer and fall. Its handsome, glossy foliage is a beautiful covering for a fence or wall, practically mildew-proof, and in California, evergreen.\$1.50

CL. CECIL BRUNNER

Few roses can equal the continuous show of dainty, miniature rose-pink, salmon-shaded bud clusters. Charming to acquaintances of 50 years and new friends alike, it is a strong grower and needs no special coaxing.\$1.00

CL. CHEROKEE PINK

Single pink climber, profuse spring bloom.\$1.00

CL. CHEROKEE RAMONA

Single red climber, profuse spring bloom.\$1.00

CL. CHEROKEE WHITE

Single white climber, profuse spring bloom.\$1.00

CL. CONDESA DE SASTAGO

Varnished bright green foliage and the flowers are a fiery combination of red, orange and gold. We recommend it highly. Moderate growth\$1.25

CL. COUNTESS VANDAL

Long, coppery bronze buds on a robust climber. Puts on a display through the season that is seldom equalled in a climbing rose. Will supply quantities of perfect flowers for cutting.\$1.25

CL. DAINTY BESS

A sport of the popular Dainty Bess bush rose. Large, daintily ruffled, single pink roses are borne constantly from spring until winter.\$1.25

CL. DAME E. HELEN

Full, double, clear rose pink bloom. Perfectly formed roses with long stems. Leaves are large and attractive. Old wood has the habit of dying out. For this reason will require more pruning than other varieties \$1.25

CL. ETOILE DE HOLLANDE

Some of the most lovely red buds and open flowers that we have ever seen are produced on this big, strong growing plant. Actually, the blooms are often larger and on longer stems than those of the bush Etoile de Hollande and they possess the same rich spicy fragrance. **\$1.25**

CL. GENERAL MACARTHUR

Deep crimson, fragrant flowers. Very free-flowering. **\$1.25**

CL. GOLDEN EMBLEM

Crimson gold and yellow. Grows vigorously. Foliage dark, glossy green. **\$1.25**

CL. HADLEY

Carries long-stemmed, velvety-red buds and flowers from March until December. You'll never forget the buds you cut nor will you forget their fragrance. **\$1.25**

CL. HEART'S DESIRE

Pat. No. 663. Exquisite, small, slender buds of deep red open to a loose semi-double flower of deep velvety red which does not fade, and has a true rich old-time rose fragrance. **\$1.50**

CL. HIGH NOON

Pat. No. 704. Just picture perfect buds and flowers of intense, clear yellow that seem to have captured and held the bright golden rays of the midday sun—then imagine them on long almost thornless stems against an 8-foot pillar of glossy, handsome foliage. This new AARS Winner for 1948 blooms not only in the spring but right along through the summer and fall. **\$2.50**

CL. HINRICH GAEDE

Pat. No. 244. Brilliant orange-vermillion flowers. The breath-taking color will surpass anything you have ever seen. Blooms heavily in the spring but continues to produce occasional magnificently colored blooms throughout the season. **\$1.50**

CL. HOOSIER BEAUTY

Flowers exactly like the bush—huge, velvety crimson flowers heavily veined with dark red. The color lasts. **\$1.25**

CL. K. A. VICTORIA

Beautifully formed pure ivory-white buds and the magnificent, high-centered, fully double flowers are produced continuously no matter what the weather. **\$1.25**

CL. LOS ANGELES

It is quite useful in a location where a moderate amount of climbing will suffice, as on a fence or not too large pergola. Bears constantly large, flame-pink buds that you will enjoy cutting. **\$1.25**

CL. MERMAID

Single yellow flowers borne in clusters. The bush has a very glossy foliage. Excellent for covering banks and fences. **\$1.25**

CL. MME. HENRY GUILLOT

Pat. Applied. An excellent climbing sport of the beautiful raspberry-pink rose. **\$2.00**

CL. MRS. E. P. THOM

Buds are pointed and of a clear yellow color. The bush is strong with bright glossy leaves. **\$1.25**

CL. MRS. PIERRE S. DuPONT

A free-flowering kind, double rich yellow. Most prolific of the yellow climbers. **\$1.25**

CL. MRS. SAM. McGREDY

Pat. No. 394. The unique coloring of rich coppery orange and the most luxuriant, bronzy green foliage in the rose world characterize this rose. The perfectly formed buds and flowers with their unusual coloring and long stems, are certain to be favorites in your garden.**\$1.50**

CL. NIGHT

Pat. No. 439. A big, vigorous plant covered with exquisite deep dark red buds and large, full flowers of deep crimson shaded black and maroon. Like those of the bush rose night, the dark velvety textured flowers have the captivating cinnamon and clove fragrance.**\$1.50**

CL. PAUL'S SCARLET

Floribunda type, profusion of Spring blooms, brilliant scarlet flowers, vigorous grower.**\$1.25**

CL. PICTURE

Pat. No. 524. You will get hundreds of beautiful, long-stemmed, perfectly formed buds on this climber every spring. The blooms are "perfect pictures" in clear rose-pink with warm salmon undertones; enchantingly fragrant.**\$1.50**

CL. PINK DAWN

Exquisitely beautiful flowers which are long lasting and have an alluring fragrance. No other pink rose has this same delicate coloring. Buds are long, flowers are fully double. The blooms are tinted with orange at the base.**\$1.25**

CL. PRESIDENT HOOVER

The famous President Hoover is vigorous enough as a bush but as a climber it grows by leaps and bounds. Huge, perfect flowers in tones of pink, red, yellow and buff, are produced in great profusion, each one on a long husky stem.**\$1.25**

CL. RED TALISMAN

Perfect long buds and full open flowers of blood-red. If you have enjoyed the bloom of the Cl. Talisman you will doubly appreciate this brilliant variety.....**\$1.25**

CL. ROSE MARIE

A vigorous climber that is a delightful shade of pure rose pink. The buds are long and pointed, petals large and well-rounded. A very prolific bloomer and strong grower.**\$1.25**

CL. TALISMAN

It is difficult to imagine anything more striking than a fence or trellis covered with the marvelous urn-shaped buds and lovely red and gold flowers of Talisman. Foliage bright green. Grows vigorously.....**\$1.25**

CL. TEXAS CENTENNIAL

Pat. No. 565. The long, brick-red buds with their huge, rosy open flowers are even larger, more lovely and borne on longer stems than on the bush form of this popular rose. It is a big, vigorous grower, blooming profusely and will give you lots of long-stemmed brilliantly colored buds for cutting.....**\$1.50**

DORMANT FRUIT TREES 1949 SEASON ALMONDS

DRAKE

Bears well and adapts itself to all Almond districts. Medium size, almost round, with a medium soft shell, plump and well filled. A good pollinizer for Nonpareil or Texas. 4-6' grade.....**\$1.00**

NONPAREIL

Probably the most valuable commercial almond for California as it bears uniform heavy crops, and because of its large, smooth, plump kernel and its paper-thin shell it does well almost everywhere. Pollinizer, Drake or Texas. 4-6' grade.....**\$1.00**

APPLES

RED DELICIOUS

A magnificent variety of fine appearance and delightful flavor; large, conical, brilliant red, slightly splashed with yellow; flesh fine grained, crisp and juicy. One of the country's most famous apples. Ripens in November. 4-6' grade.....**\$1.25**

WINTER BANANA

Large, clear wax yellow apples with a delicate pink blush. The taste is what the enticing aroma promises it will be. Dependable in all districts, with a crop every year. Ripens in August. 4-6' grade.**\$1.25**

APRICOTS

EARLY NEWCASTLE

Medium-sized, round orange-colored fruit. Excellent flavors. Ripens the first part of June. 4-6' grade.**\$1.00**

MOORPARK

If you want the finest flavored, best quality apricot to eat, this is it. The large, round deep apricot fruits, blushed on the sunny side, are unbelievably delicious. A shy bearer in the interior but exceptionally fine on the coast. Ripens in early July. 4-6' grade.**\$1.00**

ROYAL

The fruit is of good size, highly colored, often with a bright red cheek and the flesh is deep orange, rich, sweet and delicious. Royal is a fine apricot for all sections and the most dependable bearer among the standard apricot varieties. Ripens in late June. 4-6' grade.**\$1.00**

CHERRY

BING

Very large, dark red, extremely handsome and since it has the firmest flesh of all Cherries, it is splendid for canning and shipping. Ripens in June. 4-6' grade.**\$1.25**

ROYAL ANNE

Everyone is familiar with these big pale yellow cherries with the bright red cheek, and the sweet, firm flesh. In cherry growing districts the trees bear enormous crops. The leading commercial canning cherry. Ripens in late June.....**\$1.25**

FIGS

BLACK MISSION

The fruit is medium to large, mahogany-violet in color, with brownish red flesh. Bears tremendous crops even under adverse conditions and when little water is available. Leave tree unpruned. 4-6' grade.....**\$1.00**

BROWN TURKEY

The fruits are exceptionally large and long, rich purplish in color, becoming deeper purple as they mature and the flesh is a rich strawberry-red color, fine grained, sweet and juicy. It bears equally well on the coast, in inland valleys or on the desert. Larger and finer figs will be produced if the trees are heavily pruned back in the winter.....**\$1.00**

KADOTA

This is the finest white fig for most of California, and one of the best figs for all purposes, since it will can, dry, pickle or ship fresh with excellent results. The medium size fruit has a smooth, waxy, yellow-white skin and extremely sweet and rich, pale amber flesh. Heavy winter pruning decreases quantity without increasing size. Ripens from August to November. 4-6' grade.....**\$1.00**

NECTARINE

GOLDMINE

These great red and creamy green fruits, with juicy white flesh, are exceptional in flavor and quality, and are among the most beautiful of all nectarines. We have found this variety to be the one high quality nectarine which will bear good crops consistently in Southern California where most nectarines do not bear well because of our mild winters. Ripens in early August. 4-6' grade.....**\$1.00**

GOWER

Large, round fruit; skin yellowish-green with mantle of deep red. Creamy-white flesh, reddish-pink at pit. Juicy, firm and good flavor. Ripens in early July. 4-6' grade.....**\$1.00**

QUETTA

Beautiful appearance, highly colored skin. Flesh is white, of good quality and unusually firm. Clingstone. Ripens in early July. 4-6' grade.....**\$1.00**

PEACHES - CLINGSTONE

SIMS

Large clear yellow. Produces large crops. Very popular with canners and growers in all districts. Favored in Southern California because it resists delayed foliation resulting from mild winters. A good home canning peach, makes wonderful pickled peaches. Ripens in late August. 4-6' grade.**\$1.00**

WHITE HEATH

Creamy-white skin with blush on sunny side. Flesh creamy white, fine-grained and sweet with a pleasant aroma. Excellent for pickling and preserves. Mid-September. 4-6' grade.**\$1.00**

PEACHES - FREESTONE

BABCOCK

This sweet peach is small to medium in size, beautiful in appearance, with bright red fuzzless cheek. The juicy sweet white flesh is of excellent quality. They set so much fruit that they must be thinned heavily to get size. While Babcock has been widely planted in Southern California, the newer Redwing has fruit that is bigger, better looking, firmer, with a better balance of flavor. Ripens in early July. 4-6' grade.**\$1.00**

CURLEW

Pat. No. 651. Developed especially for our Southern California climate, this late-ripening peach may be depended upon to bear consistent crops year after year. The fruit is a rich deep orange-yellow, beautifully blotched with red. The flesh is yellow, red at the pit, with a delicious mild flavor, sweet and juicy. Ripens in late September. 4-6' grade.**\$2.00**

ELBERTA

Good sized, oval, yellow fruits, with red cheeks, juicy and well flavored. Known as the best canning peach. Ripens middle August. 4-6' grade.....**\$1.00**

GOLDEN BLUSH

Pat. No. 473. The beautiful big fruits of this yellow midseason peach are slightly more elongated than round, beautifully blushed with red. In flavor and juiciness it far exceeds the better known J. H. Hale or Elberta. Its exceptionally fine quality, appearance, and free-bearing habit make it a splendid home peach and a fine orchard kind as well. Mid-August. 4-6' grade.

.....**\$2.00**

J. H. HALE

This long-famous peach has big round fruits with beautiful yellow skin, heavily marked with carmine. Mid-August. 4-6' grade.

\$1.00

KIMS (EARLY) ELBERTA

This early ripening yellow peach is one of the most dependable and popular varieties now planted in California, and both for home and market we recommend it highly. It does well and consistently produces good crops almost everywhere in the Southwestern States from the coastal area to the inland valleys. The medium sized fruit is almost round, yellowish, with a rich red cheek and a beautiful orange-pink cast. The flesh is of excellent quality, almost clear yellow, so firm that it makes an excellent shipping peach. Ripens in Middle July. 4-6' grade.

\$1.00

MILLER'S LATE

If you want peaches right up to Thanksgiving, this is the one you should include in your planting because it has absolutely no competition late in the fall. A fine large yellow freestone of fair quality, and a heavy bearer. Ripens in October-November. 4-6' grade.

\$1.00

REDWING

Pat. No. 621. Fruit ripens over a long period. The good sized fruit has a brilliant red coloring over a creamy skin, and the white flesh has a rich flavor that combines acidity and sweetness in a delicious manner. Ripens in early July. 4-6' grade.

\$2.00

RIO OSO GEM

Pat. No. 84. Very large, round, brilliant red fruit, shading to orange-red. The flesh is yellow, firm, and richly flavored. Ripens in late August. 4-6' grade.

\$1.50

ROBIN

Pat. No. 529. The first good peach of the season. Ripens in late May or early June. It is a beautiful red-cheeked, white-fleshed, medium size fruit, semi-freestone, so richly colored and handsome that it will make your mouth water just to look at it. Deliciously flavored, the fruit is firm and smooth, almost fuzzless, round in shape. It keeps well after picking. Robin trees bear enormous crops. 4-6' grade.....

\$2.00

PEARS

BARTLETT

Has every quality needed for a perfect home or market pear, and it is the most widely planted variety in California. The big, golden yellow, rosy-cheeked fruit is richly flavored, buttery and melting. The tree grows vigorously but bears better crops if Beurre d'Anjou or Winter Nelis is planted with it. You will find nothing better than this kind by which all other pears are judged. Ripens in August. 4-6' grade.

\$1.25

BEURRE d'ANJOU

Large, yellow, marked with russet and crimson. Tender, sweet and juicy. An excellent pollinizer for Bartlett. Ripens in October. 4-6' grade.....

\$1.25

PERSIMMON

FUJU

Quite different from other varieties in that it is never astringent or puckery. Even when ripe the fruit is firm and may be eaten hard like an apple whenever sweet enough. The large, flattened fruits are borne in great quantities. 4-6' grade.**\$2.50**

HACHIYA

Very large, well known conical fruit of bright orange-red with sweet, rich mellow flesh. Astringent until fully ripe, then delicious. A large, well grown Hachiya is one of the most beautiful fruits grown. 4-6' grade.**\$2.50**

PLUMS

KELSEY

Very large, heart-shaped, yellow plum with red cheek and yellow flesh. Fine flavored. Good producer. Ripens in early September. 4-6' grade.**\$1.00**

LATE SANTA ROSA

The big, purplish crimson fruit, oval in shape, is covered with an attractive light blue bloom and the sweet, delicious amber-colored flesh is veined with crimson. Splendid for market or home use, it will bear a heavy crop each year no matter where it is planted. It is a good pollinizer for other varieties of plums, but will bear fair crops without a pollinizer of its own. Ripens in late June.**\$1.00**

MARIPOSA

Pat. No. 111. The gigantic purple-red fruits are overlaid with a glowing lilac bloom and the blood-red flesh has a honey-like sweetness, abundant juice, and a surpassing flavor which is impossible to describe in words. The skin, while tender in the eating, is quite thick and the flesh is firm so that the plum keeps remarkably well. Mariposa should have a tree of Satsuma or Santa Rosa planted nearby as a pollinizer. Ripens in late July. 4-6' grade.**\$1.75**

SATSUMA

The well-known Japanese Blood Plum, so highly prized for preserving. The handsome, almost round fruit of deep red has firm, juicy, well-flavored flesh of blood-red. Best pollinizer is Santa Rosa. Ripens in July. 4-6' grade.**\$1.00**

POMEGRANATE

WONDERFUL

Pomegranates grow quickly into a large 8-foot bush and thrive anywhere from the sea coast to the hottest desert valleys. They are one of the most ornamental of all fruit trees with bright, scarlet hibiscus-like flowers and big, crimson, fall-ripening fruit. Wonderful is the best variety, very large bright crimson-colored fruit and juicy, rich garnet flesh. 3-4' grade.**\$1.00**

PRUNES

FRENCH

The standard drying variety which has made California Dried Prunes famous. Large oval fruits of deep purple, with sweet sugary flesh. Ripens in September. 4-6' grade.**\$1.00**

SUGAR

Very large, dark purple fruit, the sweetest of all; particularly fine for home planting in Southern California, where the tree is exceedingly productive in all sections. The handsome big fruits are delicious to eat out of hand and are exceptionally fine for canning. Ripens in July. 4-6' grade.**\$1.00**

WALNUT

PAYNE

An outstanding producer and early bearer. Thin shell, high quality kernel. Trees do not grow as large as other varieties so may be planted closer. A splendid shade tree for the small city lot. 4-6' grade. **\$2.50**

PLACENTIA PERFECTION

The most popular walnut in Southern California. The medium sized nuts have a smooth, thin, strong shell and meats of fine quality. Bears exceptionally large crops. 4-6' grade. **\$2.50**

CITRUS TREES

ALGERIAN TANGERINE

The sweet, delicious, medium-sized fruit is rich red in color and the earliest to ripen next to Satsuma. One of the most beautiful of citrus trees. Ripens December to May.

CARTER NAVEL

A sport of Washington Navel—bearing a particularly fine type of fruit. Yields uniformly heavy crops throughout the years.

DANCEY TANGERINE

Most of the Tangerines you buy in the market are of this kind because it's an old variety planted commercially for many years. Large, handsome, thin-skinned, orange-red fruits, borne on a big, vigorous, heavy producing tree.

EUREKA LEMON

The medium-sized fruit is of the highest quality. The seeds are few and the juice is abundant. The tree is almost thornless. It ripens fruit continuously throughout the year, but ripens the biggest portion of its crop in the summer when the demand is greatest. The tree is a heavy bearer and starts to bear early.

MARSH SEEDLESS GRAPEFRUIT

This is the best variety of grapefruit for California and Arizona. The fruit is large, almost seedless, with a thin rind, abundant juice, and exceptionally fine flavor. The vigorous tree bears very heavily. Grapefruit are always thinner-skinned, sweeter and ripen earlier in the inland desert section than nearer the coast. Marsh Seedless is the best everywhere. Ripens December to May in desert; May to August near coast.

ROBERTSON NAVEL

Pat. No. 126. In appearance, color, tenderness, flavor, and juiciness, the Robertson is equal to the finest Washington Navel, making it the best eating Orange in the world. It outbears all other Navel oranges when it is young and continues to produce heavy crops. Usually starts to bear as soon as it is planted.

SEEDLESS VALENCIA

Pat. No. 124. Like all Valencia trees, the Seedless Valencia grows rapidly and vigorously. In appearance the fruit is similar to the ordinary Valencia but is possibly finer textured, with much less rag and a little better quality. Although an occasional seed may be found, you will have to hunt through hundreds of fruits to find one.

THOMPSON NAVEL

A selected sport of Washington Navel—fruit borne in clusters like grapefruit—choice quality and a dependable producer.

VALENCIA

Valencias begin to ripen in May and are available throughout the summer and fall months. The medium-sized fruit is juicy and sweet, with few seeds, and the tree is the largest of all citrus varieties. Most of the summer orange juice consumed in the United States comes from the Valencia. If you want your orange juice absolutely seedless, you will want the new Seedless Valencia. April to October.

WASHINGTON NAVEL

This famous seedless, winter-ripening Orange is largely responsible for California's world-wide citrus fame. The fruit is large, with the characteristic navel at the blossom end, and in flavor, juiciness and general high quality, it is not excelled by any other orange. The skin peels off readily, while the sections are easily separated without breaking. December to April.

GRAPES 1949 SEASON

BLACK MANUKKA

A seedless black Persian Grape, much resembling Thompson Seedless, except that the berries average one-third larger and are purplish black when mature. A splendid early eating grape, ripening ten days before Thompson. Climbing type. Early August.

.....30c each - 6 for \$1.50

CONCORD

The most popular of all American grapes. The delicious blue-black grapes are borne profusely in medium-sized bunches, and nothing excels them for grape juice and jelly. The berries have that famous slip-skin and rich unforgettable flavor. Ripens large crops in California. Climbing type. August. 35c each - 6 for \$1.75

MUSCAT

Tender, green skin. Large, long and loose bunches. Large berries, slightly oval, rich, sweet flavor. September. Bush type.30c each - 6 for \$1.50

NIAGARA

Holds the same rank among green varieties that Concord holds in the blacks. Berries large, pale-yellow, tender, sweet and juicy. Climbing type. August.

.....35c each - 6 for \$1.75

THOMPSON SEEDLESS

Great, big, compact bunches of small, green seedless grapes. Quite sweet. Their pleasant flavor is entirely different from that of any other grape. Bush type. August.30c each - 6 for \$1.50

TOKAY

Berries rich red with lilac bloom, flesh firm, crisp and sweet, and the berries keep for a long time on the bush or after picking. The finest of the late Fall grapes. Unexcelled for use in salads or eating out of hand. Bush type. October. 30c each - 6 for \$1.50

CANE BERRIES

BOYSENBERRY Thornless

The largest of all berries. Produces extra heavy crops of the most delicious berries. It is absolutely the largest bush or vine berry that we have ever seen. In color the fruit is identical with Youngberries, but it is more highly flavored and is less seedy.

.....20c each 6 for \$1.00

RASPBERRY Cumberland Blackcap

The leading black raspberry. The fruit is of fine appearance, tastes good, keeps well. Every berry grower should have a few Black Caps. 20c each - 6 for \$1.00

RASPBERRY Cuthbert

The red fruit is sweet, very large, firm, and of fine flavor, and the fruit is borne in very large clusters. It is strictly a one crop variety which bears heavily through its season (June and July) and stops. The fruit keeps fine, stands handling and hauling wonderfully, looks good and sells well. **20c** ea. - **6** for **\$1.00**

YOUNGBERRY

The fruit is large, reddish-black with rich pleasing flavor. The seeds are few in number and soft. The vines are vigorous, prolific, with few thorns which makes picking very easy; trailing in habit. It is easy to grow, thrives almost everywhere.

.....**20c** each - **6** for **\$1.00**

STRAWBERRIES

GEM EVERBEARING

It is a large berry. The fruit is of good quality with a sprightly flavor and is produced continuously through the summer and fall. One of the best everbearers for coast conditions.~~75c~~ dozen

50¢

SIERRA

Recommended for the foothills and interior valleys. Very productive in late spring and early fall. Medium-red berries are conical, sometimes white-tipped. Dessert quality good. Sierra makes vigorous plants.

.....**75c** dozen

STREAMLINER

You will agree, we are sure, that it is the sweetest berry you ever tasted. This new berry is of immense size, a sure cropper and a vigorous grower. Starts to bear early in the season and continues until well into winter. Needs practically no sugar, is excellent for canning, eating fresh and quick freezing. ~~\$1.25~~ doz.

75¢

GARDEN VEGETABLE ROOTS

ASPARAGUS Mary Washington

A variety that has come to the front, grows very large.

.....**75c** dozen

RHUBARB CHERRY

Stalks of large size and excellent flavor. One of the prime favorites in rhubarb. Strong divisions. Excellent for stewing.**35c** each - **3** for **\$1.00**

Use **"3-IN-ONE"**
LIQUID FERTILIZERS
